Handouts for Lesson 2 - Twine

Extensions

Task 1: To add an image, use this format:

Resulting code:

Provided Images.

Beaver: https://i.pinimg.com/564x/ea/e7/f1/eae7f17b4dd3ba872b412d36e936a9e4.jpg

Canoe: https://www.thecanadianencyclopedia.ca/en/article/birchbark-canoe

Musket: https://cdn.rockislandauction.com/dev_cdn/84/1107.jpg

Adjust the size of the image by adding – width"*choose a size or percent*" height"*choose a size or percent*"
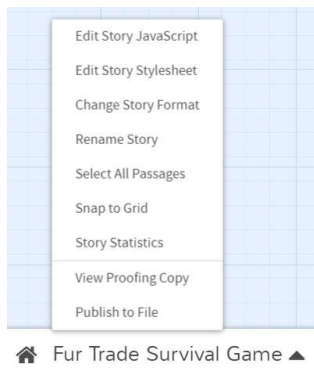

Resulting code:

Task 2: Have students **change font style, size, and color**. And **background color** of story. In the bottom right menu, go to Edit Story Stylesheet.

Fur Trade Survival Game

To choose a font and background color, have students search online for a **hexadecimal color picker.** A color code format e.g. #aabbcc or #001122

Common font styles are: Aerial, Times New Roman, Verdana (others can be found using Word).

Type in the following list format. The text after the colon are the attributes to change.

Task 3: To **add effects to your text**, use (text-style:"italic","sway")[**text**]. There are many effects such as bold, wavy-underline, blur, shudder, etc.

Resulting code:

(text-style:"italic","sway")[**Catastrophic Event**]
